

MESSAGE

While we are different manifestations of the same, scientific evidence suggests that by GOoD DESIGN we are basically and integrally RELATED as ONE, and this realization could re-unify mankind in love and peace to “breakthrough” instead of “breakdown.”

“An Architect’s Philosophy on GooD DESIGN”

Edward Suzuki

TED x Tokyo
May 22, 2009

“Where do we come from?”

What are we?

Where are we going?”

...Paul Gauguin

“Acupuncture makes use of the way
the spiral human embryo resembles
the spiral of the ear.”

... Michael S. Schneider. *A Beginner's Guide to Constructing the Universe.*

Lower limb

Upper limb

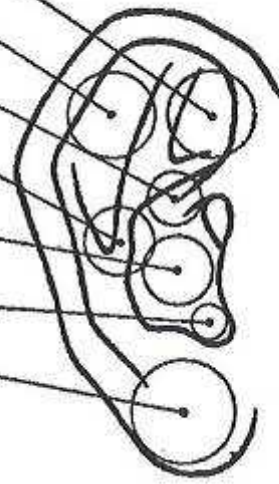

Abdomen

Rachis

Thorax

Glandular
Zone

Cephalic
extremity

“Every cell of the human body carries a blueprint of the way
all the other cells are constructed.

So there is 'something of
everything' in every single cell.
The whole exists in each tiny part."

... Jostein Gardener. *Sophie's World*.

FRACTALS:

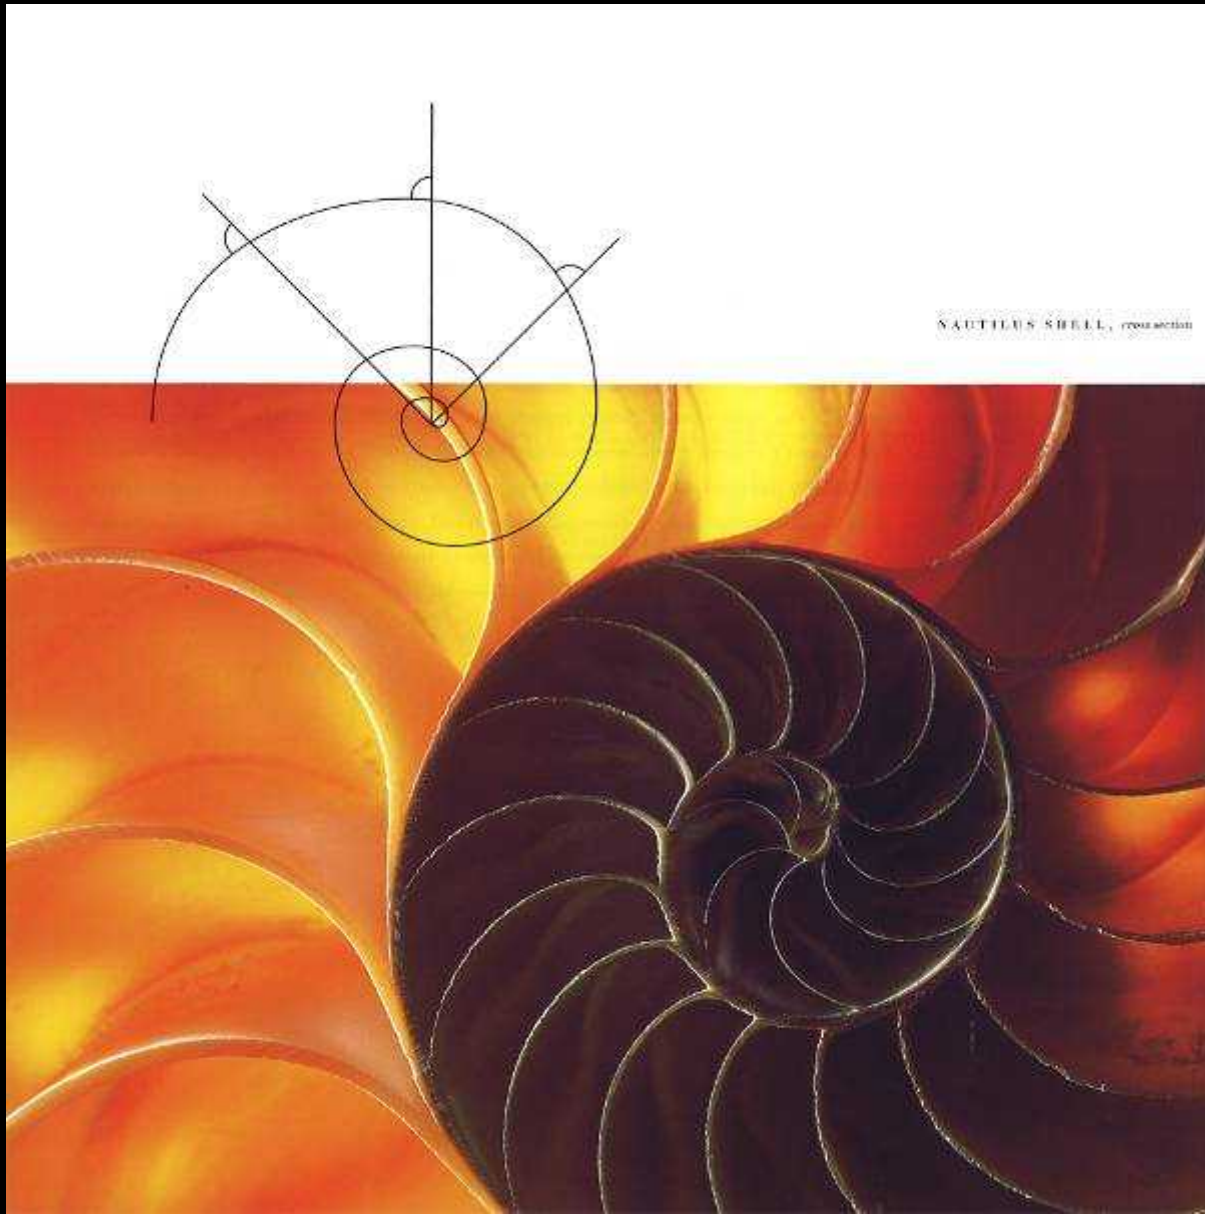

the whole mirrors the part,
the part mirrors the whole.

NAUTILUS SHELL, cross section

=Golden Ratio=1.618

The Golden Ratio is inherent in GOoD DESIGN.

1.618 may be derived from the
“Fibonacci Sequence”
which starts with

0

and

1

Nothing and Something

No and Yes

Minus and Plus

Female and Male

Death and Life

Yin and Yang

Symbolizing universal “Dualities.”

The Fibonacci Sequence is derived thus:

$$0 + 1 = 1$$

$$1 + 1 = 2$$

$$1 + 2 = 3$$

$$2 + 3 = 5$$

$$3 + 5 = 8$$

$$5 + 8 = 13$$

Etc.

If each number in the Sequence is divided by the previous number,
the result would successively approach an ideal of **1.618**

••• Michael S. Schneider. *A Beginner's Guide to Constructing the Universe.*

But 1.618=Phi is more than a number. It is a **RELATIONSHIP**

$$\frac{\text{Whole}}{\text{Large}} = \frac{\text{Large}}{\text{Small}}$$

$$\frac{1.618}{1} = \frac{1}{0.618}$$

“(Gregory) Bateson thought that in order to describe nature accurately one should try to speak nature’s language which, he insisted, is a language of **RELATIONSHIPS.**”

••• Fritjof Capra. *The Web of Life.*

“A memory, like a sensation, is not an isolated bit, it is a pattern of
RELATIONSHIPS.”

••• John Briggs and David F. Peat. *Turbulent Mirror*.

“Matter is mostly ghostly empty space.”

... Sir Arthur Eddington.

“Whatever matter is, it is not made of matter.”

••• Hans Peter Durr.

Scientists are realizing that at the heart of matter, or “thing,”
there is “no thing” but only **RELATIONSHIPS.**

“Matter is derived from mind, not mind from matter.”

••• *Tibetan Book of Great Liberation.*

Leading-edge science is discovering that the so-called “empty space” is really not a “vacuum” but a “plenum”,
-The Zero Point Energy (ZPE) field-teeming with energy and information.

“The Zero Point Energy (ZPE) field.

It is the source or foundation for all physical reality.

ZPE is bizarre... nonetheless it is rock-steady, solid science.”

...Christian de Quincey.

From Ervin Laszlo's *Science and the Reenchantment of the Cosmos*.

“As the harbinger and imprinter of all wavelengths and all frequencies, the Zero Point Field is a kind of shadow of the universe for all time, a mirror image and record of everything that ever was.”

••• Lynne McTaggart. *The Field*.

“In higher states of awareness every cell of the body coherently resonates with ‘the holographically (FRACTALLY) embedded information in the quantum zero point energy field’.”

••• Edgar Mitchell, Apollo 14 Captain.
From Ervin Laszlo’s *Science and the Reenchantment of the Cosmos*.

“Each of us thus appears to be a microcosm containing, in a holographic way, the information about the entire macrocosm.”

••• Stanislov Grof.

From Ervin Laszlo's *Science and the Reenchantment of the Cosmos*.

The ZPE Field may in time help explain Carl Jung's "Collective Unconscious," déjà-vu's, ESP, telepathy, intuition, inspiration, and other such phenomena hitherto unexplained by science.

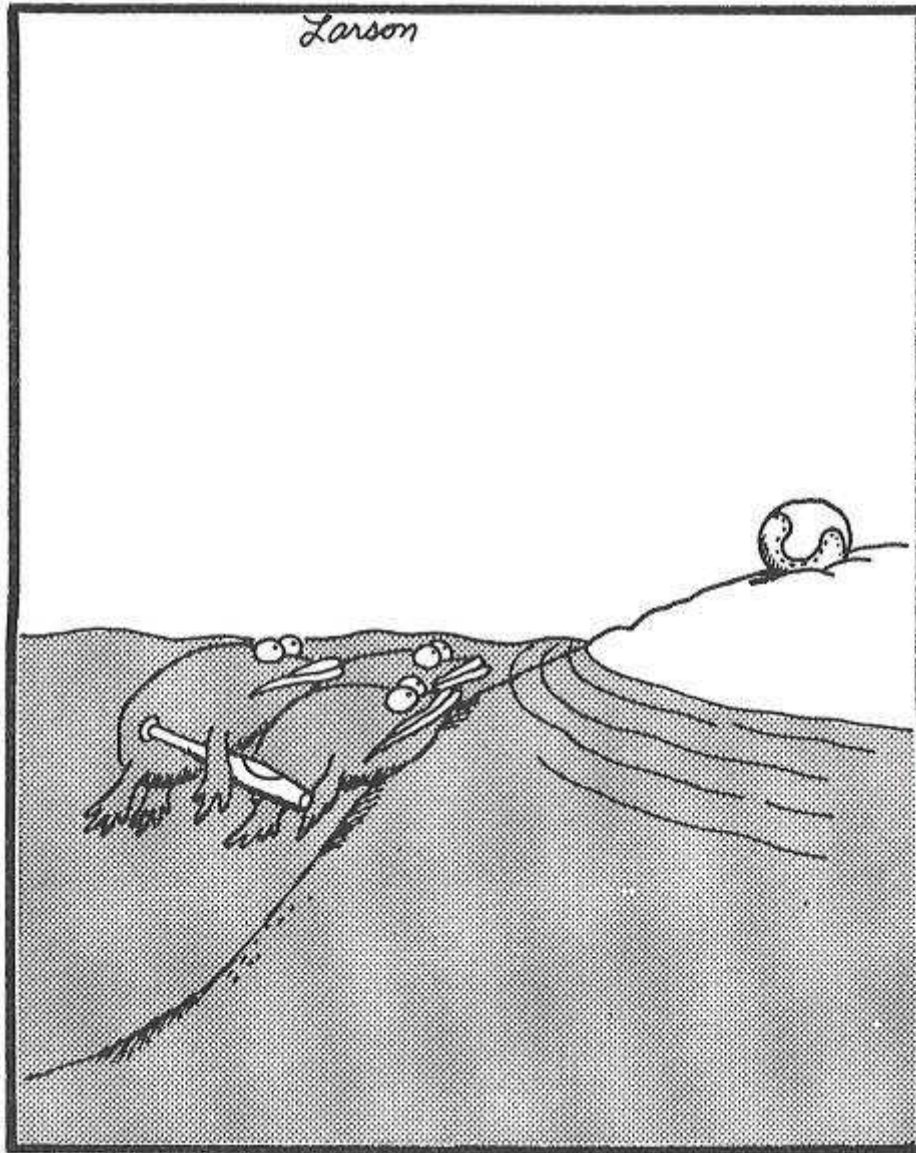

Science is now beginning to unravel
what ancient mystics knew all along.

God made Man in His Image.

“Because we are machines made out of protein,
by definition we are made in the image of the environment,
that environment being the Universe, or to many, God.”

••• Bruce Lipton. *The Biology of Belief*.

Larson

Great moments in evolution

As of yet, man is far from realizing his potential.

But Darwin was only half right.

“Life is much less a competitive struggle for survival than a triumph of cooperation and creativity. “

••• Fritjof Capra. *The Web of Life*.

“Life did not take over the globe by combat, but by networking.”

•••Lynn Margulis and Dorion Sagan. *Microcosmos*.

If you can't beat 'em, join 'em!

If only the 1.2 trillions of dollars spent annually worldwide for wars were instead spent for peace...

“Spiritual Awakening” or “Consciousness Re-evolution” or a new sense of “Cosmic Religion”^{*} is what the world needs today if we are to “breakthrough” instead of “breakdown.”

^{*}“Religion,” from the Latin “religare,” meaning to **RELATE**.

GOoD DESIGN is of one “Cosmic Soul,”
or of one “W-holy Spirit,”

and that we are all one and the “same selves”
only in “different guises. ”

“We are like islands in the sea, separate on the surface
but connected in the deep.”

... William James.

From Ervin Laszlo's *Quantum Shift in the Global Brain*.

In other words, **“I am you, you are I.”**
WE ARE ONE AND THE SAME.

If you could see yourself in “others,”
then it should change the way you look at “them.”

Try it.

It's even fun!

Now, if you please, meet and greet your “**other selves**” sitting next to you.

Thank you.
